FOREWORD

We are extremely happy and proud to gather the international scripted community again!

SERIES MANIA FORUM has become a **leading European event for series professionals**, presenting three days of panels, conferences and networking opportunities.

It is supported by the Hauts-de-France Region, the CNC (Centre National du Cinéma et de l'image animée), the Creative Europe – MEDIA programme of the European Union, and many sponsors and industry partners, which we thank warmly for their trust and support.

Designed to promote the creative process at all stages, SERIES MANIA FORUM encourages co-production initiatives in Europe and beyond. It presents upcoming trends – from writing to producing, and broadcasting –, accompanying the transformation of the global TV market.

At the heart of the event, the **Lille Dialogues** international summit pursues this purpose: bringing together European decision-makers and international industry leaders, it encourages a joint reflection on the challenges of the sector. We are particularly honored to welcome the French Minister of Culture, Roselyne Bachelot-Narquin, and the European Commissioner for Internal Market, Thierry Breton, among an exceptional line-up of speakers and guests.

Our **Co-Pro Pitching Sessions** welcome 16 series in development looking for potential financial partners. **An International Jury will award a prize of €50,000 to the best project**, supporting its further development. With a record number of submissions – twice the number of 2020 – the Co-Pro Pitching Sessions have proven to be the most highly anticipated event, a sign of the European industry's creativity and appetite for original content. Since 2013, close to 30 international series were successfully produced and broadcast after participating in the Forum.

In 2021, three projects from previous editions will be screened within Series Mania's Official Competition: *Blackport*, *Jerusalem*, and *The Last Socialist Artefact*.

SERIES MANIA FORUM is introducing the **Creative Bazaar**, a unique incubator for international writers and producers. It will host all the talents in a single location, the Bazaar St-So, thus fostering cooperation and networking between the participants in our residencies, workshops, and training programmes: the UGC Writers Campus, the Co-Writing Residency Israel-France, and the new DEENTAL Series Workshop, designed specifically for professionals from African, Caribbean and Pacific countries.

The pandemic changed our working habits towards more digitalization. With this in mind, we decided to create the **Series Mania Digital platform** to broadcast all of the SERIES MANIA FORUM's content,

events and conferences live and replay. The platform is accessible during and after the event, giving all scripted professionals the specific tools to connect and develop fruitful business relationships all year round.

We wish all our industry participants a rich experience of networking opportunities and exchanges of ideas. From late August on – and for the years to come – SERIES MANIA FORUM will once again be the place “where series begin”!

Francesco Capurro, Series Mania Forum Director

LILLE DIALOGUES

THE AUDIOVISUAL INDUSTRY AT THE HEART OF EUROPEAN RECOVERY

The Lille Dialogues bring together **European lawmakers** and **international audiovisual industry leaders** for a day-long trade summit to encourage joint reflection on the challenges facing the audiovisual industry and to promote international cooperation.

Europe is a continent that is rich in creation and is an important consumer market for audiovisual content. As such, what are its prospects in a globalized context? How can we support the competitiveness of the European offer in a fragmented market and in the face of the challenges posed by the digital and ecological transition?

The Lille Dialogues are **a space for discussion and propositions** that aim to support the international audiovisual industry. Its goal is to **promote a Europe of culture** that fosters **pluralism, diversity, and social cohesion**.

The event is organised in partnership with the **Ministry of Culture**, the **CNC**, and the **European Commission**.

PANEL

LET'S GO GREEN! SUSTAINABILITY THROUGH INNOVATION

From on-set practices to the digital revolution in post-production, how are European institutions and the industry transforming environmental issues into a key element of Europe competitiveness?

PANEL

IS EUROPEAN TV READY FOR DIVERSITY?

The need for better representation has never been more pressing. However, statistics reveal significant imbalances in terms of the representation of people with disabilities, as well as diversity of sexual orientations and ethnic origins, both on screen and behind the camera. This round table will examine different European approaches, what has been achieved, and what still remains to be done.
